TECHNICAL SKILLS

- Frontend: React.js, Redux Toolkit, Context Api, JavaScript (ES6+), Python, HTML5, CSS3, Tailwind CSS
- Backend: Node.js, Express.js
- Database: MongoDB
- Deployment & Tools: Netlify, Vercel, Render, GitHub, AWS(basics)
- Concepts: RESTful APIs, Authentication, Responsive Design

Soft Skills

- Willingness to learn
- Active listening
- Calm under pressure
- Communication skills
- Problem-solving
- Commitment to excellence
- Analytical and critical thinking

English

Hindi

CERTIFICATIONS

Full Stack Development Certification –

Frontend Developer specializing in real-time applications using React and WebRTC.
Built a scalable telemedicine platform using mediasoup (SFU architecture) enabling low-latency video consultations.
Strong in JavaScript, performance optimization, and designing production-ready, reusable UI components.

PROFESSIONAL EXPERIENCE

Frontend developer (project-based) | 2024 – present

• Developed a real-time telemedicine platform using webRTC and mediasoup (SFU), enabling low-latency video consultations
• Built responsive and accessible UI for video calls, chat, and prescriptions using react and tailwind
• Implemented websocket-based signaling for real-time communication
• Improved application performance and handled network edge cases for stable connections
• Contributed to live production websites: hcase.in, cognentra.com, kgbhut.com

.

PROJECTS

Telemedicine Platform (WebRTC + mediasoup)

• Designed and developed a scalable real-time video consultation system using SFU architecture

• Implemented WebSocket signaling for peer communication and session management

• Optimized video streaming performance under varying network conditions

Doctor Appointment Booking App (MERN Stack)

Live: https://medi-connect
GitHub: https://github.com/shraddha2820/mediConnect

• Built a full-stack appointment system with real-time availability tracking
• Designed REST APIs for booking and user management

• Implemented authentication and role-based access

BookMyShow Clone

IIT Guwahati

HOBBIES AND INTERESTS

- Reading books
- Painting
- Travelling
- Hiking

Live: https://bookmyshow-front.netlify.app

GitHub: https://github.com/shraddha2820/BookMyShow

• Implemented dynamic seat selection with state management

• Designed scalable backend APIs for booking flow

E-Commerce Web App

Live: https://shopfusion-e-com.netlify.app/

GitHub: https://github.com/shraddha2820/shopFusion-e-com

• Developed responsive e-commerce UI with cart and wishlist features
• Implemented global state management using Redux
• Integrated authentication and optimized user flow
• Built reusable UI components (buttons, forms, modals) to improve code maintainability

EDUCATION

2017
B.Tech - Information Technology
IT , GGU, Bilaspur, CG

- CGPA 8.2
- Demonstrated working model of a hydraulic crane with a load capacity of up to 1 kg
- Organized a technical event (Hackathon) in college tech fest Equillibrio(2016).
